

Intercomm, Raising Aspirations programme.

Our project is pleased to announce that we can offer 20 primary and 20 secondary school children from Carrickfergus free education tuition in both Maths and English starting late May 2021.

The project will be aimed at areas of which are in greatest need across Carrickfergus.

Primary school year groups P5 - P7.
Secondary School year groups Year 10 - Year 11.

Alongside the tuition classes participants will be expected to take part in the Gang Response and Anti-Sectarian Programme (GRASP) which has been successfully piloted in the Ferris park and Factory areas of Larne in response to the vulnerability of young people to negative influences. This involves a structured programme providing young people with the knowledge and resilience skills across a range of themes as well as a visit to Glasgow to meet a range of role models who have transformed their lives through making better choices through engaging in education and training.

Anyone wanting to have their child considered for a place on this programme please email
